

Current Reality Assessment

The Acts 2 Journey is a journey of change. Together we are seeking the path to a new day for your church—one where you can more effectively fulfill God’s purpose for your church and your lives.

Before we begin our first steps, let’ take a look at where your church is in its current reality. Assessing **where you are** can be a critical step toward finding **where you need to go**.

In your notes, you’ll find an assessment grid called “Assessing Your Congregational Life Stage.”

Here are the instructions: There are a number of statements divided into five rows as you move left to right. In each row, circle the two statements that best describe your church right now. Do this individually. You will discuss your assessment with one another later in the session.
